Expanded Curriculum

The Seesaw Library has hundreds of new ready-to-teach, standards-aligned activities for PreK-5.

Check out the new instructional templates and lessons in Spanish!

Present to Class

Bring whole class instruction to life through multimodal inputs like video, interactive texts, curated online artifacts, teacher modeling, and more.

Present to Class

Scheduling Tools

Scheduled messages, office hours, due dates, and more make it easier to plan ahead and own your workflow.

🕐 Schedule

Save Office Hours

Simplified Workflow

Updates to Create, Assign, Activity, and Progress pages help teachers differentiate, monitor student progress, and stay organized!
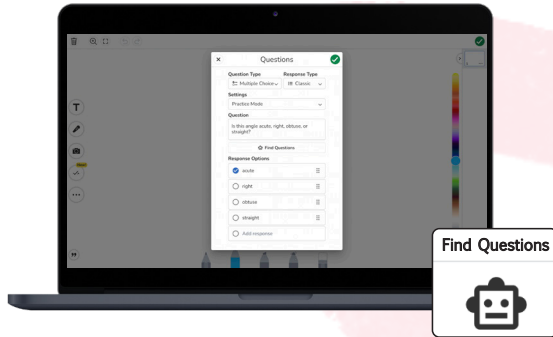

Share with Messages

New options allow teachers to easily share links for assignments and send progress report to families.

...and that's not all. Find more updates **here**.

Formative Assessment Tools

Combine the time savings of auto-grading with the power of multimodal tools to get deeper insights into student learning to differentiate and guide instruction.
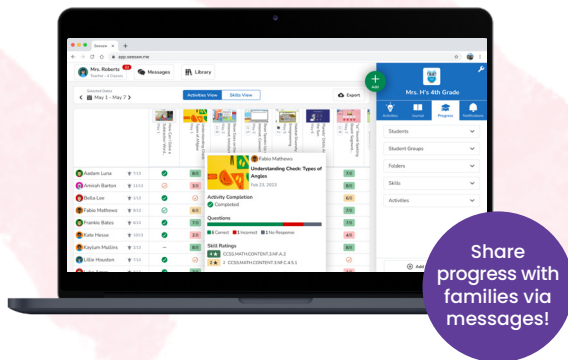

Find Questions

Quickly gauge student understanding by adding auto-graded questions to any Seesaw assignment.

- Multiple Choice
- True/False
- Polls
- Drag and Drop

Practice mode allows students to get instant feedback to correct misconceptions on the spot.

Teachers can see the number of tries and dive deeper into the student work to inform instructional interventions. Want to assess formally? Use assessment mode to turn off feedback to students.

Detailed reports equip teachers with student response data that enables responsive instruction and differentiation.

Easily share progress reports with families through messages.

Share progress with families via messages!

Get started today with pre-made assessments in the Seesaw Library.

Pro tip: Use Present to Class to model formative assessment questions for students.
