

# ELECTRIFY YOUR RIDE: ONLINE LEARNING OUTLINE

This program will take 1-2 hours of instructional time depending on student discussion. Please ensure each student has access to a computer/electronic device and Internet to complete the activities.

- 1 Students will complete an individual electric vehicle pre-program questionnaire, [click here to access it!](#)
- 2 As a class, watch our EV videos and have a discussion when you see the questions pop up, [click here to watch!](#)
- 3 Break students into teams to play a Jeopardy led by the teacher. Questions are broken into categories and are assigned a point value. Keep track of each team's score. [Click here to download!](#)
- 4 Students will complete the activity, Going the Distance, [click here to download!](#) Please print off one page per student.
- 5 Share your experience and your photos with us on our social media using [#GaiaEV](#)

## Green Experts Program

How are people in the workforce taking action on sustainability? Explore our Green Expert Program which was created to showcase existing green careers in the province with the help of a growing list of mentors.

It's a great program to help introduce students to green jobs by learning about the skills needed, career paths, and more.

Visit the [Directory of Green Experts](#) under the Gaia-Led Programs on the high school section of our website.
